### **Philanthropic Contributions/Participation**

All outside charitable and philanthropic contributions are limited to those directed and approved by the HBA Charitable Foundation. All decisions by any council or committee to participate in a fundraiser, not necessarily requiring direct funding from the Charitable Foundation, but requiring other direct or indirect HBA resources, including sponsorships, promotions, volunteer and/or staff time, must be preapproved by the Charitable Foundation, with the exception of Build-PAC contributions and Ohio Valley Development Council program affiliations or sponsorships. All such charitable and philanthropic requests and involvements should demonstrate a direct housing- related impact.

The Charitable Foundation is the “giving arm” of the HBA and is a non-profit organization established in 1990 to support and promote housing related activities and scholarships and to fill other housing needs in the Greater Cincinnati area.

The purpose of this policy is to clarify that the HBA does not budget for such activity nor can it pick and choose among the many worthwhile charities and philanthropic causes in the Greater Cincinnati region. The HBA Foundation’s decision not to participate in a specific activity does not preclude any member or company from soliciting other members to participate in such activities outside of the realm of the HBA.
